

The program is intended to run on a computer with MS-Windows (XP / VISTA / Windows 7) as an operating system.

Requirements/pre-requisites

Installed software

Any of the following:

ArcGIS Desktop [9.2 (SP3) or 9.3] with DOTNET support installed

ArcGIS Engine Runtime [9.2 (SP3) or 9.3] with DOTNET support installed

The installer does not check if the required ArcGIS application(s) is/are installed in the machine.

IMPORTANT: Make sure you have all the required pre-requisites installed. ArcGIS DOTNET Support is installed only if you have DOTNET Runtime is installed. Minimum DOTNET runtime version required is 2.0. For additional information on ArcGIS DOTNET Support, see ArcGIS installation guide.
